in Robotics!* ✨ ✨

Free Robotics Kits for Girls Teams

Teams with 2 or 3 girls can borrow a robotics kit for the duration of a WRO competition season free of charge.

Terms:

- * * The team commits to participating in a WRO competition.
- * * The team is willing to submit at least 2 entries for the Girls Blog on wro.swiss.
- * * The robotics kit remains the property of WRO Switzerland and will be returned after the end of the season.

Testimonials

«We had one girl who participated already last year. Thanks to the free robot from WRO Switzerland we could open another team with only girls, and she felt more at home and was more motivated.»

«Without the robotics kit from WRO Switzerland, our two girls would not have been able to compete in a WRO competition.»

«We really looked forward to the girls workshop. We learned a lot of useful things on how to program a robot. We were also given much helpful information for the competition day.»

Robotics Workshops and Girls Robotics Camp

WRO Switzerland offers robotics workshops as well as a camp weekend for beginners and advanced girls.

Participation in these events is not linked to participation in a competition; instead, it is open to all girls aged 8 to 16 years.
