

## SUPPLEMENTARY TASK FOR THE SWISS FINALS

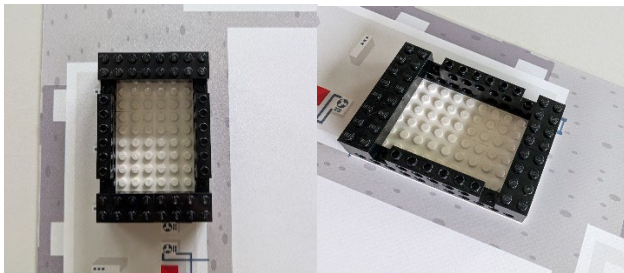

A wrong ball has been placed on top of one of the barriers. A red ball is on the red barrier. Of course, this does not match the artistic concept for this area! So the ball has to be taken to the coloring station to dye it nice and blue, as the artist intended. To maintain safety on the site, the barrier must not be moved.

### Please note:

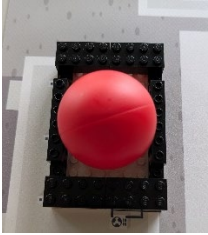

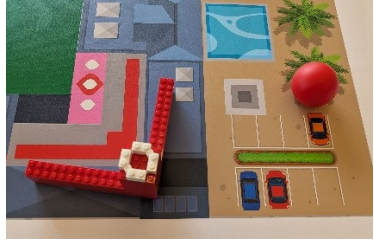

- The coloring station is fixed to the game mat using double-sided tape.
- If the barrier is moved, no points can be awarded for this supplementary task.

Positioning of the coloring station:

The table below shows the scoring for this supplementary task, and the photos clarify its application for the wrong-colored ball.

	Each	max.
The wrong-colored ball is in the coloring station (it touches only the coloring station).	<b>25</b>	<b>25</b>
The wrong-colored ball has been removed from the barrier, but it is not in the coloring station.	5	5
 25 points (ball is in the coloring station)	 5 points (ball is removed from the barrier, and the barrier has not been moved, but the ball is not in the coloring station)	 0 points (barrier has been moved)
